PRESENTER BIOGRAPHIES

American Association of Healthcare
Administrative Management

Nan Woldin **Director, Revenue Cycle Operations** **St. Vincent Charity Medical Center**

Nan Woldin is a seasoned Revenue Cycle Professional with over 35 years experience at such well known Northeast Ohio providers as UHHS Richmond Heights Hospital, Mt. Sinai Hospital, Deaconess Hospital, St. Michael's Hospital, Barberton Hospital and Centers for Dialysis Care. Her areas of expertise range from Patient pre-access to Credit and Collections. She has been a proud, card- carrying member of Western Reserve AAHAM for many years, serving on the Board of Directors for the past 10. Her time on the AAHAM Board has afforded her the opportunity to attend many AAHAM Legislative Days in Washington, DC. While Nan's friends and colleagues consider her love of Washington DC history and politics a bit obsessive, she prefers to think of it as her small attempt to heighten awareness of healthcare issues on Capitol Hill.....Her own Nanfordable Healthcare Act, if you will!

Shelly Peters **Managing Director** **Legacy Data Access, LLC**

I have been in the Healthcare IT Industry since I entered the workforce in 1986.

I have worked as a healthcare IT consultant for IBM, Ernst & Young, McKesson – helping customers with planning to implementations with projects that include revenue cycle and clinical applications.

I currently work for Legacy Data Access, a company I started in 1999 to provide storage and access solutions for retired and replaced information systems. In 2011, I partnered with Cadrillion Capital to assist with the resource and capital needs to manage our growth and expand our offerings. We retire applications that have been replaced by exporting the data and putting it in web based applications that allow the hospital system to access the data discretely and meet regulatory requirements around data retention while at the same time reducing the cost to maintain the data. LDA retires data from revenue cycle, hospital clinical and ambulatory electronic health record and practice management systems.

I am currently pursuing a doctorate in business specializing in the study of information flow in a pediatric clinic so as to identify opportunities for useful health record implementations that are patient rather than solution or regulatory-centered. My passion is to enable IT for the sake of the patient, and not for the sake of IT itself.
